NON-WARRANTY REPAIRS ON ARTICLES TO BE REPAIRED AND/OR MODIFIED ON CLIN 0005

Articles to be repaired under this contract, will be shipped at the Government's expense to the contractor's plant, _____ . The contractor shall receive for each shipment a list (referencing this contract number) of the articles included in the shipment stated on the DD Form 1149 or DD Form 1348.

THE FFP PRICE FOR CLIN 0005 – NON WARRANTY MINOR REPAIRS – IS FOR THE EVALUATION AND MINIMAL REPAIRS OF THE EO AND INCLUDES: Clean, visually inspect and bench test, disassemble to the extent necessary to verify failure and/or inspect for needed repair processes and parts of subassemblies as required. This process may include the removal and replacement of subassemblies in order to verify failures, the tightening of connections or fasteners, or other minimal repairs that can be accomplished during the evaluation. In the event the failed unit is determined to have equipment missing on induction, the contractor shall notify the PCO no later than five (5) days of its receipt along with a list of missing equipment. The Government will then provide disposition instructions (i.e. place usable assemblies/subassemblies into GFP and scrap remaining components, provide approval to replace missing equipment with existing GFP (if available) without replacement, or request the contractor provide a fixed-price repair proposal, to include the cost of the missing equipment and shipment to the return address.)

Paragraph (o) "Warranty" change as follows:

The contractor shall extend to the Government the full coverage of any standard commercial warranty normally offered in a similar commercial sale, provided such warranty is available at no additional cost to the Government. Acceptance of the standard commercial warranty does not waive the Government's rights under the "Inspection" clause nor does it limit the Government's rights with regard to the other terms and conditions of this contract. In the event of a conflict, the terms and conditions of the contract shall take precedence over the standard commercial warranty. The standard commercial warranty period shall begin upon final acceptance of the applicable material and/or services listed in the Schedule.

The contractor shall provide a copy of its standard commercial warranty (if applicable) with its offer. The warranty covers a period of __ months or ______ hours. *(Offeror is to insert number.)*

The following paragraph is hereby added to the clause:

(t) *Contractor Performance Reports.* The Government may evaluate the performance of the contractor awarded the contract resulting from this solicitation, in accordance with FAR 42.1500. The following performance rating factors will be utilized:

- Quality
- Timeliness of Performance
- Business Relations
- Customer Satisfaction

The following paragraph is hereby added to the clause:

(u) PERFORMANCE BASED LOGISTICS (PBL) INCENTIVE CRITERIA

THE PURPOSE OF PBL: The purpose of the use of PBL incentives in this procurement is to reduce the overall cost to the Government through the use of incentives to ensure a focus on improving Mean Time Between Failures and to provide an incentive for quick delivery of units submitted for repair.

METHOD OF ASSESSMENT:

A. Mean Time Between Failure (MTBF). The MTBF threshold (minimum requirement) as set forth in the Performance Specification of 1440 hours shall be used as the performance requirement STANDARD minimum. Systems that fail before the MTBF based on the internal counter of individual unit will be repaired under warranty at no additional cost to the Government.

B. Average Contractor Response Time (ACRT): The Contractor shall be responsible for maintaining an ACRT of no more than 10 calendar days including warranty and non warranty repairs. ACRT is a measurement of the time the contractor takes to deliver systems in response to orders issued for nonwarranty repairs CLINS (0005 and 0006) and repairs completed under warranty. Measurement of time begins for nonwarranty repairs when the contractor receives the funded order and system, whichever is later, and ends when a Ready For Issue (RFI) repairable is submitted to the Government for inspection and acceptance. Warranty repairs measurement of time begins when the contractor receives at their facility the product to be repaired and ends when the RFI repaired product is forwarded to the Government. For a system to be considered in the ACRT calculation it must be accepted by the Government.

ACRT is calculated by dividing the sum of the number of CRT, described above, for all repairs (both warranty and non-warranty) received in a 12-month period of time by the number of systems received for repair.

See ACRT table below for the performance metric to be used to measure this performance incentive criteria.

ACRT Metric (Calendar Days)	
< 5	Unit Price Adjustment - Maximum 3% negotiated prior to contract award. (TO BE FILLED IN AT TIME OF AWARD)
5 –9	Unit Price Adjustment - Maximum 1.5%) negotiated prior to contract award. (TO BE FILLED IN AT TIME OF AWARD)
10 (Standard)	
11-30	Vendor is to provide “hot spare” to government from rotatable pool
>30	Vendor is to provide “hot spare” and to add two additional hot spares to the rotatable pool at no cost to Government
>60	Vendor is to provide “hot spare” and add two additional hot spares to the rotatable pool PLUS provide additional 12 month full warranty for the repaired product upon delivery of the product

Hot spare is defined as a replacement system(s) for the failed system(s).

Incentives

If the annual ACRT achievement is standard or less than the standard the contractor shall not be considered for an annual unit price adjustment.

FOR YEARS ONE THROUGH FOUR, if the annual ACRT is above the standard, the Government shall award the contractor through unit price increases on ordering quantities in the next 12-month contract period. The Government shall calculate the ACRT and make contract unit price adjustments beginning one year after the contract award date. The incentive calculation will continue to occur annually during the entire incentive period.

If the ACRT is below the standard the contractor shall provide Hot spares through the warranty period of the last system ordered.

Administration: It is anticipated a resultant contract will be administered by the cognizant DCMA. In that capacity, DCMA shall be responsible for verifying the date of receipt at the contractor's facility and date of shipment from the contractor's facility.

PERFORMANCE ASSESSMENT CRITERIA

The Government intends to utilize Performance Based Logistics Incentives (both positive and negative) in the administration of this contract. The Performance of the product as measured by **Mean Time Between Failure (MTBF)** will be subject to a negative incentive.

The Performance of the Repair Turn Around Time will be measured by the **Average Contractor Response Time (ACRT)** and is subject to positive/negative incentives.

ITEM 0002 - PROVISIONED ITEMS ORDER (NAVSEA) (APR 1999) – (5404)

(a) General. The Contractor agrees that it will furnish the supplies or services ordered by the Government in accordance with the procedures specified herein. Orders may be placed by the Contracting Officer, Provisioning Activity or Administrative Contracting Officer as unilateral or bilateral modifications to this contract on SF 30, Amendment of Solicitation/Modification of Contract. Any amounts shown in Section B at time of award of the initial contract for each provisioned line item are estimated amounts only and are subject to upward or downward adjustment by the issuing activity. If no amounts are shown, funding will be obligated before or at time of order issuance. It is understood and agreed that the Government has no obligation under this contract to issue any orders hereunder.

(b) Priced Orders. For each proposed order, the Contractor agrees that it will submit such cost or pricing data as the Contracting Officer may require. Promptly thereafter, the Contractor and the Contracting Officer shall negotiate the price and delivery schedule for the proposed order. Upon execution and receipt of the priced order, the Contractor shall promptly commence the work specified in the order.

(c) **Unfinalized Orders.** Whenever the Contracting Officer determines that urgent demands or requirements prevent the issuance of a priced order, he/she may issue an unpriced order. Such order may be unilateral or bilateral and shall establish a limitation on Government liability, a maximum ceiling amount, and a schedule for finalization, as described in subparagraph (e)(2) below. Upon request the Contractor shall submit a maximum ceiling amount proposal before the unfinalized order is issued. The maximum ceiling amount is the maximum price at which the order may be finalized. The Contractor shall begin performing the unfinalized order upon receipt, except as provided in paragraph (d) below. The clause entitled "CONTRACT FINALIZATION" (DFARS 252.217-7027) shall be included in any unfinalized order.

(d) **Rejection of Unilateral Orders.** The Contractor may reject any unilateral order if the Contractor determines that it cannot feasibly perform the order, or if the Contractor does not concur with the maximum ceiling amount. However, each unilateral order shall be deemed to have been accepted by the Contractor unless within fifteen days of issuance of the order, the Contractor notifies the Contracting Officer in writing of its rejection of the order.

(e) **Finalization of Unfinalized Orders.**

(1) The Contractor agrees that following the issuance of an unfinalized order, it will promptly begin negotiating with the Contracting Officer the price and terms of a definitive order that will include: (A) all clauses required by regulation on the date of the order; (B) all clauses required by law on the date of execution of the definitive order; and, (C) any other mutually agreeable clauses, terms and conditions. No later than sixty (60) days after the unfinalized order is issued, the contractor agrees to submit a cost proposal with sufficient data to support the accuracy and derivation of its price; and, when required by FAR, cost or pricing data, including SF 1411. If additional cost information is available prior to the conclusion of negotiations, the Contractor shall provide that information to the Contracting Officer. The price agreed upon shall be set forth in a bilateral modification to the order. In no event shall the price exceed the maximum ceiling amount specified in the unfinalized order.

(2) Each unfinalized order shall contain a schedule for finalization which shall include a target date for finalization and dates for submission of a qualifying proposal, beginning of negotiations and, if appropriate, submission of make-or-buy and subcontracting plans and cost or pricing data. Submission of a qualifying proposal in accordance with the finalization schedule is a material element of the order. The schedule shall provide for finalization of the order by the earlier of:

(i) a specified target date which is not more than 180 days after the issuance of the unfinalized order. However, that target date may be extended by the Contracting Officer for up to 180 days after the Contractor submits a qualifying proposal as defined in DFARS 217.7401; or

(ii) the date on which the amount of funds expended by the Contractor under the unfinalized order exceed fifty percent (50%) of the order's maximum ceiling amount, except as provided in subparagraph (f)(3) below.

(3) If agreement on a definitive order is not reached within the time provided pursuant to subparagraph (e)(2) above, the Contracting Officer may, with the approval of the Head of the Contracting Activity, determine a reasonable price in accordance with Subpart 15.8 and Part 31 of the FAR, and issue a unilateral order subject to Contractor appeal as provided in the "DISPUTES" clause (FAR 52.233-1). In any event, the Contractor shall proceed with completion of the order, subject to the "LIMITATION OF GOVERNMENT LIABILITY" clause (FAR 52.216-24).

(f) **Limitation of Government Liability.**

(1) Each unfinalized order shall set forth the limitation of Government liability, which shall be the maximum amount that the Government will be obligated to pay the Contractor for performance of the order until the order is finalized. The Contractor is not authorized to make expenditures or incur obligations exceeding the limitation of Government liability set forth in the order. If such expenditures are made, or if such obligations are incurred, they will be at the Contractor's sole risk and expense. Further, the limitation of liability shall be the maximum Government liability if the order is terminated. The "LIMITATION OF GOVERNMENT LIABILITY" clause shall be included in any unfinalized order.

(2) Except for unfinalized orders for Foreign Military Sales; purchases of less than \$25,000; special access programs; and Congressionally-mandated long-lead procurements; and except as otherwise provided in subparagraph (f)(3) below, the limitation of Government liability shall not exceed fifty percent (50%) of the

ceiling amount of an undefinitized order. In the case of orders within these excepted categories, however, the procedures set forth herein shall be followed to the maximum extent practical.

(3) If the Contractor submits a qualifying proposal (as defined in DFARS 217.7401) to definitize an order before the Contractor has incurred costs in excess of fifty percent (50%) of the ceiling amount, the Contracting Officer may increase the limitation of Government liability to up to seventy-five percent (75%) of the maximum ceiling amount or up to seventy-five percent (75%) of the price proposed by the Contractor, whichever is less.

(4) If at any time the Contractor believes that its expenditure under an undefinitized order will exceed the limitation of Government liability, the Contractor shall so notify the Contracting Officer, in writing, and propose an appropriate increase in the limitation of Government liability of such order. Within thirty (30) days of such notice, the Contracting Officer will either (i) notify the Contractor in writing of such appropriate increase, or (ii) instruct the Contractor how and to what extent the work shall be continued; provided, however, that in no event shall the Contractor be obligated to proceed with work on an undefinitized order beyond the point where its costs incurred plus a reasonable profit thereon exceed the limitation of Government liability, and provided also that in no event shall the Government be obligated to pay the Contractor any amount in excess of the limitation of Government liability specified in any such order prior to establishment of firm prices.

(g) Initial Spares. The limitations set forth in paragraph (c) and subparagraphs (e)(2), (f)(2) and (f)(3) do not apply to undefinitized orders for the purchase of initial spares.

(h) Terminal Date for Placement of Orders. The Contractor shall not be obligated to accept any orders placed hereunder beyond 180 days after delivery of the last end item.

(i) Segregation of Costs. The Contractor shall segregate the costs of performance of each undefinitized order from the cost of performance of any other work performed by the Contractor.

END OF ADDENDUM FAR 52.212-1

EVALUATION--COMMERCIAL ITEMS (JAN 1999) (FAR 52.212-2) Addendum 3

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

FACTOR I - Technical

SUBFACTORS

- A. Product Sample
- B. Performance Specification Compliance
- C. Statement of Work Compliance

FACTOR II - Price

SUBFACTORS

None

FACTOR III – Past Performance

SUBFACTORS

- A. Contract History
- B. Customer Satisfaction
- C. Delivery
- D. Subcontracting

The Technical factor is significantly more important than the Price and Past Performance factors. The Price factor is more important than the Past Performance factor. Technical and Price factors, when combined, are more important than Past Performance. Under Factor I, Technical, Subfactor A is significantly more important than Subfactor B and C. Under Factor II, Price, there are no subfactors. Under Factor III, Past Performance, Subfactors A, B, C and D are listed in descending order of importance.

The price factor becomes more important as the degree of equality of Factors Other Than Price increases, or when the price is so significantly high as to diminish the value of the technical superiority to the Government.

(b) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s). **Delete paragraph (b) in its entirety.**

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

NOTE: The provision at 52.212-2 has been tailored (See addendum 3).

PRICING OF STEPLADDER QUANTITIES

The government reserves the right to award any quantity within the stepladder quantity range (CLIN 0001). Offerors shall submit as part of its proposal a written proposed subcontracting plan in accordance with the clause entitled "SMALL BUSINESS SUBCONTRACTING PLAN" (FAR 52.219-9).
