Section C - Descriptions and Specifications

STATEMENT OF WORK

1.0 SCOPE. This Statement-of-Work sets forth the requirements for the procurement of Item 1: Dispenser, Countermeasures Chaff-Flare D-66 (NAVAIR Drawing 3268AS500) and Item 2: Dispenser, Countermeasures Chaff-Flare D-67 (NAVAIR Drawing 3646AS500) via an IDIQ contract. Technical Data Packages (TDPs) are provided as enclosures (1) and (2) and the environmental testing requirements for acceptance purposes are provided as a portion of this SOW.

1.1 BACKGROUND. These dispensers are part of the AN/ALE-47(V) Countermeasure Dispensing System that increases aircraft survivability by determining and executing the most effective off-board countermeasure response, thereby reducing cockpit workload. The system optimizes the countermeasures response and to eliminate dispensing against false inputs. This increases the on-board expendable dispenser capability by conserving stores and precluding untimely depletion. Key improvements of the ALE-47 over previous dispenser systems include integration with the aircraft EW and avionics systems to provide a threat adaptive countermeasure response for single or multiple threat sources and payload management capabilities which conserve mission payload stores. The Navy and Marine Corps have fielded several hundred of these dispensing systems and the requirement for installation of the system on new platforms is expected to continue for several years. Thus, there exists a need to procure additional quantities of the dispensers to satisfy the projected requirements.

1.2 OBJECTIVE. This SOW is being submitted to initiate the competitive procurement cycle to obtain 200 each of Item 1 and Item 2 in the late FY 04 time frame. Additional quantities of 1000 of each may be procured in the FY 05 thru FY 09 time frame.

2.0 APPLICABLE DOCUMENTS. NAVAIR Drawing Packages 3268AS500, 3646AS500, TP3268AS800 and TP 3646AS800.

3.0 TASK REQUIREMENTS. The successful contractor shall provide a first article consisting of the following production representative hardware within 90 days of contract award: 3268AS500 quantity 5. First Article requirement may be waived for contractor who has previously produced the item. The contractor is not authorized to begin manufacture of production quantities or procure material for production units until the first article has been approved. Testing and acceptance of the first article sample shall be at NAVSURFWARCENDIV Crane within 30 days.

3.1 CERTIFICATE OF COMPLIANCE. The contractor will be required to provide a certificate of compliance (A004) on each production lot (each delivery lot). This certificate will identify that all work was performed in accordance with the requirements of the TDP.

4.0 ACCEPTANCE TESTING. The dispensers will be tested in accordance with requirements outlined in the Acceptance Test Procedure TP3268AS800 and/or TP 3646AS800 as a part of the Technical Data Package. The contractor will provide a test report (A002) to verify/certify the testing was properly performed and issue the completed data sheets that are provided as a part of the Acceptance Test Procedure TP3268AS800 and/or TP 3646AS800. Initial inspection shall consist of quality assurance at point of manufacture and/or assembly and check/test prior to shipment. Final inspection and acceptance will be made by the Receiving Activity after installation/check out/testing of the supplies.

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding (1) five calendar days for delivery of the award through the ordinary mails, or (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the

offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

Section M - Evaluation Factors for Award

CLAUSES INCORPORATED BY FULL TEXT

CNIN-M-0001 SINGLE AWARD FOR ALL ITEMS

Due to the interrelationship of supplies and/or services to be provided hereunder, the Government reserves the right to make a single award to the offeror whose offer is considered in the best interest of the Government, price and other factors considered. Therefore, offerors proposing less than the entire effort specified herein may be determined to be unacceptable.

CNIN-M-0002 GREATEST VALUE EVALUATION

(a) **The contract resulting from this solicitation will be awarded to that responsible offeror whose offer, conforming to the solicitation, is determined most advantageous to the Government, cost/price and other factors considered.**

The offeror's proposal shall be in the form prescribed by this solicitation and shall contain a response to each of the areas identified which affects the evaluation factors for award.

EVALUATION FACTORS

Past Performance (Most Important Factor)

Price/Cost (Secondary Factor)

Proposed prices will be evaluated based on an examination of the proposed price for the first article units (CLIN 0001 and an average cost basis for the five years for the production units (CLINs 0002 and 0003).

(b) **Although cost is not a weighted evaluation factor, it will not be ignored.** The degree of importance of the cost will increase with the degree of equality of the proposals in relation to the other factors on which selection is to be based, or when the cost is so significantly high as to diminish the value of the technical superiority to the Government.

(c) In evaluating cost type offers, realism of the offeror's estimated cost will be considered. "Realism of Estimated Cost" is determined by reference to the costs which the offeror can reasonably be expected to incur in performance of the contract in accordance with his offer. Unrealistic personnel compensation rates will be considered in the cost realism analysis and may be considered in the technical analysis which could reduce the technical score.

(d) The Government may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the offeror's best terms from a cost or price and technical standpoint. However, if considered necessary by the contracting officer, discussions will be conducted with only those offerors determined to have a reasonable chance for award.

(e) **The Government reserves the right to make an award to other than the lowest priced offeror or to the offeror with the highest technical score if the Contracting Officer determines that to do so would result in the greatest value to the Government.**

CNIN-M-0003 PAST PERFORMANCE

During the source selection process, the Government will assess the offeror's past performance in the evaluation for contract award. Accordingly, each offeror is required to submit a list of up to five of its most recent contracts within the past three years, either completed or on-going, for the same/similar products or services. It is preferred that these contracts be with U.S. government customers, but contracts with other commercial concerns are also acceptable. Offerors are authorized to provide information relative to any problems encountered on the identified contracts and any corrective actions taken by the offeror. The Source Selection Authority (SSA)/Contracting Officer will evaluate the offeror's past performance based upon the information furnished by the offeror and/or other information obtained by the Contracting Officer. The Contracting Officer is not responsible for locating or securing any information not

furnished with the offer. The SSA/Contracting Officer may, however, utilize all available information, including information not provided by the offeror, in the past performance evaluation. The Government reserves the right to review less than all information submitted, and to only analyze sufficient information to make a reasonable determination of each offeror's past performance rating.

If insufficient information regarding the offeror's corporate history is available, the offeror is encouraged to submit for evaluation evidence of relevant past performance on the part of the offeror's key/principal employees, as either a prime- or sub-contractor.

Past performance is assessed by the SSA/Contracting Officer and is assigned a narrative rating in the evaluation. Each offeror will be given an adjectival rating on past performance: highly favorable, favorable, neither favorable nor unfavorable, unfavorable, highly unfavorable, or no same or similar history. Offerors who do not have same or similar past performance information reasonably available to the Contracting Officer will not be rated either favorable or unfavorable. The Government reserves the right to award to other than the lowest priced offer as set forth elsewhere in the solicitation. In addition, the Government may accept other than the lowest priced offer if doing so would result in greater value to the Government in terms of technical performance, quality, reliability, life cycle cost, or lower overall program risk. As a part of the past performance evaluation, the Government will assess the offeror's previous compliance with the requirements of FAR 52.219-8 and 52.219-9 as applicable.

Note: Award will be made to the offeror whose offer is most advantageous to the Government.
